will be e-mailed.

Developments in UC Davis advanced practice research

Dr. Lori Kennedy will outline high level overview of APP research and productivity as well as discuss effective ways to navigate research in UC Davis.

Lori Kennedy PhD, RN, ACNP-BC is the Director of the Center for Nursing Science and Clinical Nurse Scientist at UC Davis Health. Lori completed master's degree and clinical nurse specialist licensure in the first ACNP class in the UCSF Department of Physiological Nursing.

Her interest in clinical research prompted her interest in pursuing a PhD. She was accepted into the inaugural cohort of the Betty Irene Moore School of Nursing in 2010 and was awarded a Ruth L. Kirschstein National Research Service Award pre-doctoral fellowship from NIH.

Dr. Kennedy obtained her Doctor of Philosophy in Nursing Science and Health-Care Leadership in June 2014. Her research is focused on body temperature in the acute period after moderate and severe TBI and its impact on neurologic outcome.

Dr. Kennedy is active in professional organizations including national leadership in the American Association of Neuroscience Nursing, the American Board of Neuroscience Nursing, and the Agnes Marshall Walker Foundation. She has served in committee chair roles for both the Neurocritical Care Society and Society of Critical Care Medicine and is a Fellow of the Neurocritical Care Society.
