</table>
| Oct 7, 2015| 12:00 | Med Ed 2222 | David J. Segal, PhD | University of California Davis, Biochemistry and Molecular Medicine, Pharmacology, MIND Institute, UC Davis School of Medicine  
The Prospect of Molecular Therapy for Neurologic Disease |
| Nov 4, 2015| 12:00 | CHT 1341 | Joseph Shieh, MD, PhD   | University of California San Francisco, Pediatrics  
Undiagnosed Diseases and Genomic Variant Interpretation |
| Dec 2, 2015| 12:00 | CHT 1341 | Megan Dennis, PhD       | UC Davis School of Medicine, Biochemistry and Molecular Medicine  
The Role of Genomic Duplications in Human Evolution & Disease |
| Jan 6, 2016| 12:00 | CHT 1341 | Fereydoun Hormozdiari, PhD | University of California Davis, Biochemistry and Molecular Medicine  
Discovery and Study of Structural Variation (SV) in Human Disease and Evolution |
| Feb 3, 2016| 12:00 | CHT 1341 | Satya Dandekar, PhD     | University of California Davis, Medical Microbiology and Immunology  
Taking Cues from Cancer Cures for HIV Eradication |
| Mar 2, 2016| 12:00 | CHT 1341 | Gerald Quon, PhD        | University of California Davis, Molecular and Cellular Biology  
Regulatory Genomics Approaches to Prognosis Prediction and Interpretation of Genetic Variation |
| Apr 6, 2016| 12:00 | CHT 1341 | Christopher L. Bowlus, MD | University of California Davis, Gastroenterology and Hepatology  
The Genetics of Primary Sclerosing Cholangitis |
| May 4, 2016| 12:00 | CHT 1341 | Karen E. Matsukuma, MD, PhD | University of California Davis, Pathology and Laboratory Medicine  
An Integrated Approach to Lynch Syndrome Screening: Lessons Learned One Year In |
| Jun 1, 2016| 12:00 | CHT 1341 | Jacqueline Barlow, PhD  | University of California Davis, Microbiology and Molecular Genetics  
DNA Replication and Genome Instability in Tumorigenesis |

Lunch will be provided!

Sponsored by: UC Davis Health System Office of Continuing Medical Education, Division of Genomic Medicine in the Department of Pediatrics & UC Davis Genome Center

Approved for 1.0 AMA PRA Category One Credit
